GOING BEYOND Trigger Points

Myofascial Pain Seminars with Cathy Cohen

BeyondTriggerPoints.com

What are the unique features & benefits of the Going Beyond Trigger Points *Connect The Dots System*SM ?

The *Going Beyond Trigger Points Connect The Dots System*SM is an advanced continuing education program for Massage Therapists.

It teaches a comprehensive pain therapy system that Massage Therapists can apply in their daily practice. It integrates the work of Dr. Janet Travell, the originator of myofascial trigger point therapy, into a highly accessible system that Massage Therapists can easily apply to resolve their clients' pain conditions.

*Going Beyond Trigger Points Connect The Dots System*SM integrates four essential bodies of therapeutic knowledge into one coordinated and easy to use system:

1. **Myofascial Trigger Point Therapy** to relieve pain caused by myofascial trigger points
2. **Advanced myofascial therapeutic massage techniques**, such as cross-fiber friction, longitudinal stripping, myofascial spreading, and cyro-stimulated pain-free stretching
3. **Neuromuscular re-education protocols** to re-train dysfunctional muscular and fascial systems, based on a thorough assessment of the client's condition, including related activating and perpetuating factors
4. **Structural Integration / Postural Realignment / Kinesiological Therapies** to restore overall healthy posture and structural balance

Some form of myofascial therapy, and even a superficial introduction to trigger points, is often included in the basic curriculum at many massage schools. However, the breadth and depth of knowledge of Myofascial Trigger Point Therapy is rich and vast. It requires time, dedication, and a desire to go beyond routine massage sessions to provide genuine lasting pain relief.

Cathy Cohen, LMT, the developer of the *Going Beyond Trigger Points Connect The Dots System*SM received extensive training in Trigger Point therapy - over 1,000 hours simply to be qualified as an entry-level Myofascial Trigger Point Therapist.

Cathys' graduate studies included mentoring by Dr. Travell, certification as a CORE Structural Integration Therapist from George Kousaleos, and advanced training in Myofascial ReleaseTM from John Barnes.

"Going Beyond Trigger Points is truly a graduate-level program. After I mastered the complex technical knowledge of trigger points, I had to find my own path to incorporating this into a do-able therapeutic massage session."

*"Out of that experience I developed my *Going Beyond Trigger Points Connect The Dots System*SM so that other massage therapists could 'fast-track' into becoming qualified Myofascial Trigger Point Therapists. By now, more than 2,600 therapists have taken my seminars and are successfully treating their clients using these techniques."*

Here's what students say about my Going Beyond Trigger Points Seminars

*"Best tools ever for relieving pain --
a real blessing!"*

"I have taken all of the Beyond Trigger Points courses with Cathy Cohen. They have been the best tool I have ever learned for my practice. When people come in with different pains in parts of their body, to be able to really target where to work is very helpful! Cathy is an awesome teacher."
Patti Reed, LMT, Naples, FL

*"Cathy is an awesome teacher --
her enthusiasm is contagious"*

"At first, I was afraid to deviate from my basic routine, but now I use these techniques in every session. I am a better and more confident therapist. Cathy's teaching style always encourages students to think, to question, and to speculate. Her enthusiasm is contagious."
Brian Sorbello, LMT, RN

*"Your system is probably the most
helpful thing that I have learned as a
massage therapist"*

"I would like to say your class's system is probably the most helpful thing that I have learned as a massage therapist. The classes have given me the knowledge to go out and help my patients with pain complaints. All the posture work we do has been an enormous help. If anything, just to keep reinforcing in my mind what I need to do to maintain my own posture."
Meg Sapp, LMT

Cathy Cohen's Beyond Trigger Point Seminars, BeyondTriggerPoints.com & CarpalTunnelCoaching.com are approved NCBTMB continuing education programs(#450949-09) & by Florida Board of Massage Therapy (#50-302).

About Cathy Cohen, LMT Trigger Point Therapy Master Teacher

Approved National CEU Educator NCBTMB #450949-09
Florida Board of Massage Therapy: #50-302

Cathy Cohen, LMT is a National and Florida approved CEU Provider and Board Certified Myofascial Trigger Point Therapist. She provides live and online massage-therapy continuing education for massage therapists. Her students include many who are new to Trigger Point Therapy, as well as experienced Trigger Point Therapists who seek out her advanced knowledge and coaching.

Cathy has practiced myofascial therapies since the 1980s and has been teaching for over 20 years. She knows how frustrated both clients and therapists can become when dealing with muscular pain. Fortunately her background as a Trigger Point Myotherapist and Structural Integration therapist has equipped her with the confidence and skills to assess and treat myofascial pain syndromes.

Cathy's deep insight into physical balance, structural alignment, and self-care comes through her own long experience in yoga and ballroom dance, as well as through her formal education as a biologist. Cathy trained with Dr. Janet Travell, the leading pioneer in myofascial pain syndromes and former White House Physician, and with Nancy Shaw and George Kousaleos (CORE Structural Integration).

In her practice and her teaching, Cathy specializes in resolving chronic musculoskeletal pain and structural alignment issues. Her leading-edge educational program, BeyondTriggerPoints.com, is a resource used by therapists and healthcare providers nationwide. Cathy has personally trained over 2,600 therapists in advanced Trigger Point Therapy protocols.

Cathy developed the in-depth *Going Beyond Trigger Points* Seminars to provide therapists with the best possible advanced training. The unique *Connect the Dots System*sm makes it easier for students to integrate and apply the breadth and depth of Travell and Simons' Myofascial Trigger Point Therapeutic program, supported by the postural restoration protocols of Structural Integration.

In addition to giving students a firm foundation in the essentials, she provides specialized advanced training for systematically identifying and addressing the postural and behavioral conditions that perpetuate clients' postural dysfunctions and myofascial pain.

"I thoroughly enjoyed your workshop! The material was exactly what I was hoping for and beyond. The format was precise and informative, leaving me with real tools and a protocol to follow, with a genuine understanding of why it works! Wonderful! It has very literally changed the way I work and why. I truly believe it is one of the most powerful and empowering approaches to healing and pain management... For client AND practitioner!" Elle Harmon, LMT

Cathy's unique *Going Beyond Trigger Points* Seminars format provides three-courses-in-one for her students:

1. Students get hands-on training in Trigger Point Therapy with abundant personal guidance and individual attention from Cathy over a carefully-paced two days of learning.
2. Students receive thorough training and practice in essential *Therapist Self-Care* protocols.
3. After the in-person, hands-on *Going Beyond Trigger Points* Seminar, students receive the six weeks *Follow-Up & Enrichment Program* with paced, comprehensive *Multimedia Reinforcement* for each 2 day course you take to ensure retention and integration of the new knowledge and skills.

In 2015 Cathy co-created an innovative online video-coaching program, CarpalTunnelCoaching.com that has helped clients (including many massage and body work therapists!) to systematically resolve their hand and wrist issues.

With her 30 years experience teaching and motivating patients and students in clinical, classroom and online settings, Cathy is deeply dedicated to helping people improve the quality of their lives, and to assisting therapists in caring for their own bodies as they treat others.
